

EATING DISORDER RECOVERY THROUGH CONNECTION

Staff Spotlight

Esperanza is excited to announce our new Psychiatric Nurse Practitioner

Dr. Chinwe Ojiyi

Describe your position and why you have a passion for it:

I am a Psychiatric Nurse Practitioner at Esperanza, where I conduct diagnostic evaluations, treatment planning, and medication management as part of a multidisciplinary team. I am passionate about providing holistic mental health care and supporting patients on their journey to wellness.

In my role as a PMHNP I have worked closely with patients to build trust and empower them to take an active role in their treatment. Witnessing patients gain confidence in managing their mental health, recognizing their own strengths, and celebrating milestones, no matter how small has been one of my most meaningful accomplishments.

What do you feel makes Esperanza unique?

Esperanza is unique because of its comprehensive and community centered approach to care. Rather than addressing mental health in isolation, Esperanza brings together professionals from multiple disciplines to provide wraparound support for patients and families.

What is your favorite aspect of your job?

My favorite aspect of my job is the opportunity to form meaningful connections with patients and their families.

I'm grateful to contribute to Esperanza's mission, making a positive impact on the community's mental health and fostering hope and resilience each day.

Connect with Dessimber Lauber at 210.253.9763 for a FREE telephone screening, insurance benefits review and to schedule a comprehensive, in-person assessment.
